

PRODUCT DATA SHEET

Premium Quality Lubricants

NATIONAL™ 2-CYCLE ENGINE OIL Low Ash 2-Cycle Engine Oil

PRODUCT DESCRIPTION

NATIONAL™ 2-Cycle engine oil is a low ASH formulation for use in air cooled 2-stroke engines primarily found on lawn mowers, weed trimmers and leaf blowers. It provides easy mixing and stable mixtures with gasoline, event at low temperatures. High level of detergency controls port deposits, retard ring sticking, and reduce spark plug fouling. It has excellent lubricity to protect against piston and cylinder scuffing.

INDUSTRY AND OEM SPECIFICATIONS

◆ API TC

APPLICATIONS

NATIONAL™ 2-Cycle engine oil is recommended for motor cycles, lawn mowers, snowmobiles, snow blowers, chain saws and other air cooled two-cycle engines API Service Category TC quality.
